President's Message

Our grocery stores are filling with squash and pumpkins, our children and grandchildren, and student members, have returned to school and the leaves are slowly turning. Welcome to fall in Ontario!

On behalf of the THEA board, I hope that you've had an excellent summer. Whether it was spent at the cottage or on a vacation or at home enjoying the amazingly hot summer in Toronto and the GTA.

This newsletter brings tidings from our professional home economist summer exploits: from the IFHE conference attended by Marilyn Weber on behalf of THEA. These pages also contain interesting items from the World Health Organization and updates in food safety and regulations from the government of Canada.

This coming fall we hope to keep you engaged with some members' events. We will be keeping everyone in-the-know about new events via email as well.

I'd also like to welcome Noreen Kallai to the newsletter team. She will be providing a set of professional home economist eyes to our seasonal publications.

I hope you all have a lovely fall season. Enjoy reading!

Andrea Liesner
THEA, President

THEA publishes four newsletters per membership year in Fall, Winter, Spring and Summer.

Deadline for submissions for the winter issue is January 5, 2016. Items suitable for publication may be edited to fit the available space. **Please send submissions to Kairi Kallai, THEA Administrator at info.thea@yahoo.ca.**

This issue was prepared by Kairi and Noreen Kallai. Thank you to all those who contributed!
